

**BADN Dead boxes**

**BADN Dead boxes**

Full welded dead boxes with a sheet thickness of 2.00 or 3.00 mm designed to slow down the falling material with integrated inspection door.

The baffle plate on the inside is lined with polyurethane liner 83° shore to ensure longevity of the product and to reduce the noise level.

These dead boxes are suitable for the transport of waste materials such as dust and chips but also for the transport of grains and such.

**Material**

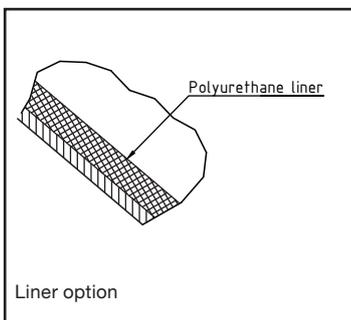

2.00 or 3.00 mm powder coated black steel in RAL 7032. Baffle plate coated with wear resistant lining (83° Shore)

**Type**

Rolled sheets with 6 mm edges for lock rings.

**Options**

- FDA and EU compliant food-grade quality
- hot-dipped galvanized or stainless steel execution
- full wear resistant lining as of Ø150 (83° Shore)
- equipotential equalization
- other colors
- other diameters
- other types of edges or connections

Ø d mm	Code	A mm	B mm	H mm	s mm	Weight kg
