

BBZH Flanged blanking plates

BBZH Flanged blanking plates

Blanking plates are designed to close off a line, for example at the end of a pipe or a branch that is not used.

To mount on a flanged ducting element.

Material

3.00 and 6.00 mm stainless steel AISI 304, chronital blasted.

Type

Cut sheets with holes for flanges R II - T2 (DIN 24154).

Options

- FDA and EU compliant food-grade quality
- powder coated versions in other sheet thickness
- equipotential equalization
- other diameters
